

MARKING AND SCORING PROCEDURES ON THE RANGE

MARKING PROCEDURES FOR BUTTS PARTY

- 1 Insert disc to indicate fall of first shot, raise target and indicate with marking triangle value of shot as indicated above
- 2 At second shot drop target, insert disc into second shot hole, patch first hole, raise target and indicate
- 3 Continue in this manner until informed by firing point to drop target and patch up in readiness for next competitor.

This is all you need to do. Watch sand for splash or lay your hand onto frame or both to feel shots as they come.

This procedure should obviate any delay in raising and lowering targets during the competitions.

MARKING PROCEDURES FOR SCORER

During the competition each competitor will be accompanied by a scorer.

The scorer will mark on the scoring card the score as indicated by the butts marker after each shot. What could be more simple.

Scoring cards will be supplied and the details of the competition should be filled in as required.
